

How to tell a joke

Prepare the willing recipient by gently laying them on the ground.

step
1

Be sure to choose a comfortable spot where you both can enjoy the joke to be told.

step
2

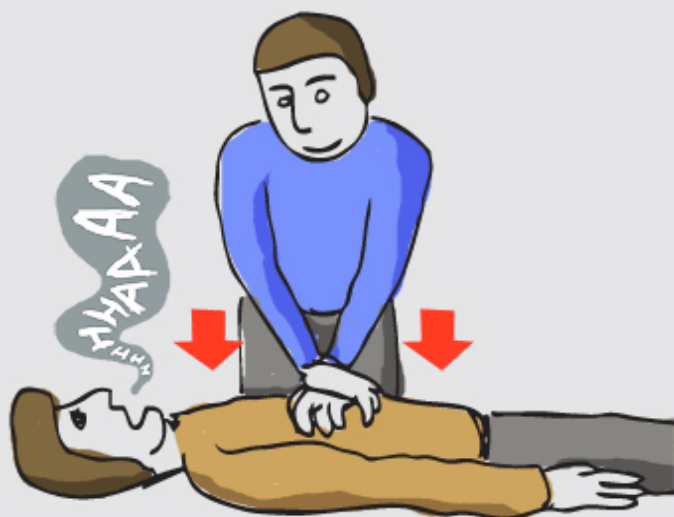

Whisper the joke directly into the recipient's mouth.

This allows the recipient to enjoy the sound of the joke along with the feeling of it in their mouth.

Compress the recipient's chest until the desired amount of laughs are achieved.

step
3

Be sure to achieve as many laughs as your ego requires.

promise me
one thing...

that you'll
name a typeface
after me. one
that shows my
love for frilly lines
while conveying
my gritty nature
